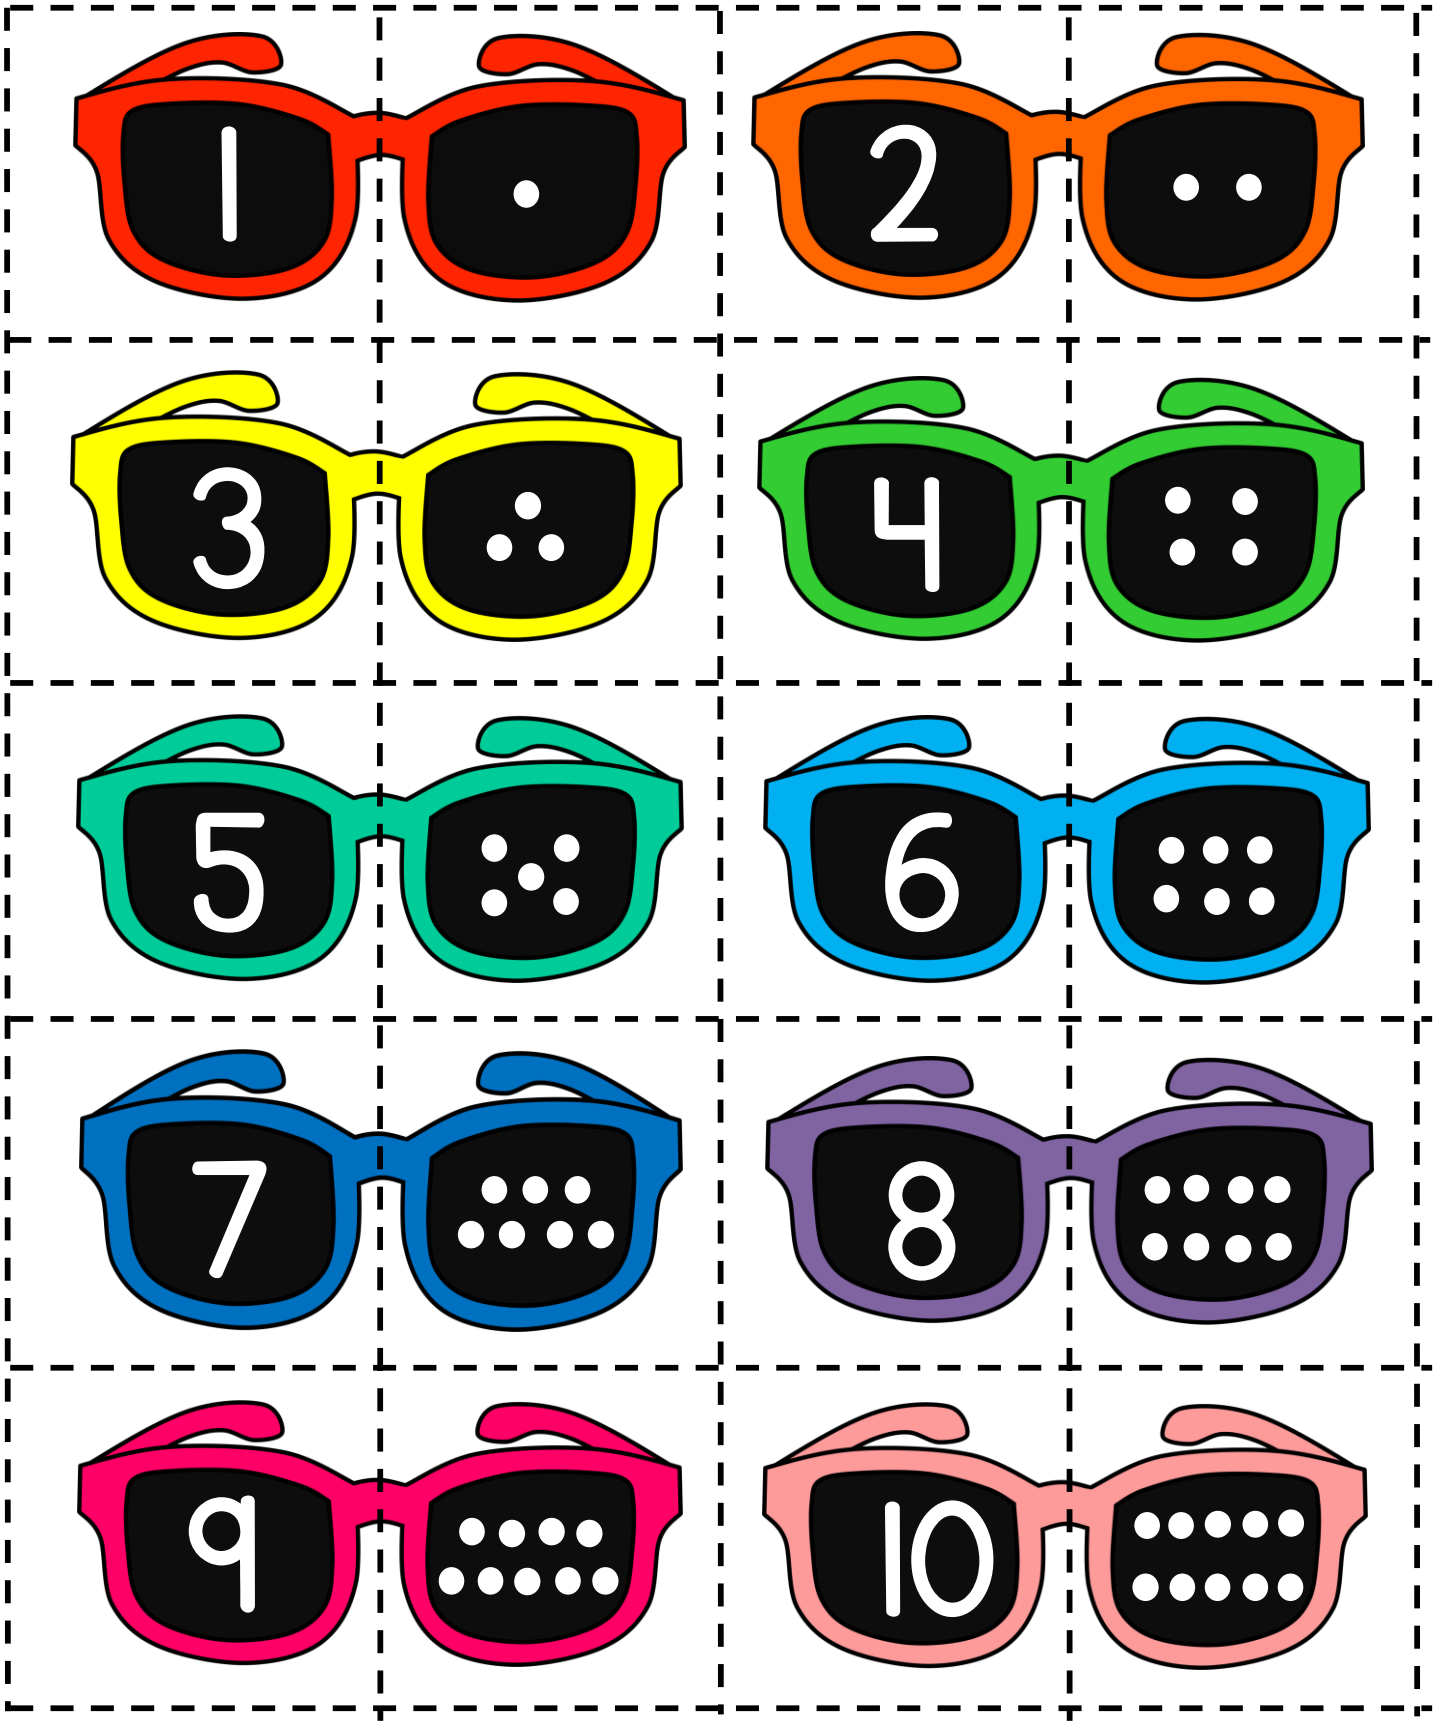
Sunglass Number Match 1-10

Created by: Melissa Vesta

www.momentswithmiss.com

I **can** match the numbers 1-10 to the correct number of dots.



Directions: Print on cardstock, laminate if possible, cut along dotted lines. Match numbers to correct amount of dots.

Optional: Tape number side into a file folder and use Velcro dots to match the other half.

I can make dots to match the numbers 1-10.

Directions: Print. Use white paint and a q-tip to count out/create the correct amount of dots on the corresponding side of the sunglasses.
